

## I. IDENTIFICATION

### Product identifier

# HANDCLEAN

### Recommended use of the chemical and restrictions on use

Hand cleaner.

### Details of the supplier of the safety data sheet

Lab 6 Pty Ltd

Unit 17B 1 Endeavour Road

CARINGBAH NSW 2229

Telephone + 61 2 9525 6322

Facsimile + 61 2 9540 2616

### Emergency telephone number

13 11 26 Poisons Information Centre

## 2. HAZARDS IDENTIFICATION

### Classification of the substance or mixture

Classified as hazardous according to Safe Work Australia criteria.

Eye irritation – category 2A

### Label elements

### Hazard pictogram

### Signal Word

Warning

### Hazard Statements

H319 Causes serious eye irritation

### Precautionary Statements

### General

PI01 If medical advice is needed, have product container or label at hand.

PI02 Keep out of reach of children.

PI03 Read label before use.

### Prevention

P264 Wash skin thoroughly after handling.

P280 Wear eye/ face protection.

# SAFETY DATA SHEET

## Response

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P337 + P313 If eye irritation persists: Get medical advice/ attention

## Other hazards

None known

## 3. COMPOSITION / INFORMATION ON INGREDIENTS

### Mixtures

| Ingredients  | CAS number | Weight % |
|--|------------|----------|
| Alcohols, C10-16, ethoxylated, sulfates, sodium salts; Sodium laureth sulphate | 68585-34-2 | < 5 %    |
| Alcohols, C12-14, ethoxylated; Laureth-8                                       | 68439-50-9 | < 3 %    |
| Amides, coco, N,N-bis(hydroxyethyl); Cocamide DEA                              | 68603-42-9 | < 3 %    |

## 4. FIRST AID MEASURES

### Description of first aid measures

For advice, contact a Poisons Information Centre (Phone Australia 131 126; New Zealand 0800 764 766) or a doctor.

### Inhalation

If inhaled, remove from contaminated area.

### Skin contact

If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water.

### Eye contact

If in eyes, hold eyelids apart and flush the eye continuously with running water. Continue flushing until advised to stop by the Poisons Information Centre or a doctor, or for at least 15 minutes.

### Ingestion

If swallowed, do NOT induce vomiting.

### Most important symptoms and effects, both acute and delayed

Causes serious eye irritation.

### Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

## 5. FIRE FIGHTING MEASURES

### Extinguishing media

Not combustible. If material is involved in a fire use: fine water spray, foam, dry agent (carbon dioxide, dry chemical powder).

### Special hazards arising from the substance or mixture

Not combustible. Decomposes on heating emitting toxic fumes.

## Advice for firefighters

Fire fighters to wear self-contained breathing apparatus and suitable protective clothing if risk of exposure to products of decomposition. Keep containers cool with water spray.

## Hazchem Code

None allocated

## 6. ACCIDENTAL RELEASE MEASURES

### Personal precautions, protective equipment and emergency procedures

Wear protective equipment to prevent skin and eye contact and breathing in vapours. Shut off all possible sources of ignition. Work up wind or increase ventilation. Clear area of all unprotected personnel. Contact local emergency services where appropriate.

### Environmental precautions

Avoid contaminating waterways. If contamination of sewers or waterways has occurred advise local emergency services.

### Methods and material for containment and cleaning up

Contain using sand or soil. Prevent run off into drains or waterways. Use absorbent (soil, sand or other inert material). Collect and seal in properly labelled containers or drums for disposal.

### Reference to other sections

See Section 8 for appropriate personal protective equipment. See Section 13 for waste treatment methods.

## 7. HANDLING AND STORAGE

### Precautions for safe handling

Keep out of reach of children. Avoid skin and eye contact and breathing in vapour. Always wash hands before smoking, eating, drinking or using the toilet. Wash contaminated clothing and other protective equipment before storage or re-use.

### Conditions for safe storage, including any incompatibilities

This product is a Scheduled Poison (S6) and must be stored, maintained and used in accordance with the relevant regulations. Store in a cool, dry, well ventilated place out of direct sunlight. Store away from sources of heat or ignition. Store away from foodstuffs. Store away from incompatible materials described in Section 10. Keep container standing upright. Keep containers closed when not in use. Check regularly for leaks.

### Specific end uses

See Section 1.

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

### Control parameters

No exposure standard assigned for this specific material by the Safe Work Australia.

### Exposure controls

#### Appropriate engineering controls

Natural ventilation should be adequate under normal use conditions. Keep containers closed when not in use.

#### Individual protection measures, such as personal protective equipment

The selection of PPE is dependent on a detailed risk assessment. The risk assessment should consider the work situation, the physical form of the chemical, the handling methods, and environmental factors.

## Eye/face protection

Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. Refer to Australian/New Zealand Standard AS/NZS 1337:1992 for guidance on selection and use of protective eyewear.

## Skin protection

Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Refer to Australian/New Zealand Standard AS/NZS 2161.1: 2000 for guidance on selection and use of protective gloves. Personal protective equipment for the body, appropriate footwear and any additional skin protection should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

## Respiratory protection

Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. Refer to Australian/New Zealand Standard AS/NZS 1715 and AS/NZS 1716 for guidance on selection and use of respiratory devices.

## General safety and hygiene measures

Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

## Environmental exposure controls

Not available

## 9. PHYSICAL AND CHEMICAL PROPERTIES

### Information on basic physical and chemical properties

|  |                   |
|--|-------------------|
| Appearance                                   | Green liquid      |
| Odour  | Apple fragrance   |
| Odour threshold                              | Not applicable    |
| pH   | 6.0 – 7.0         |
| Melting point/freezing point                 | Not available     |
| Initial boiling point and boiling range      | Not available     |
| Flash point                                  | Not applicable    |
| Evaporation rate                             | Not available     |
| Flammability (solid, gas)                    | Not applicable    |
| Upper/lower flammability or explosive limits | Not available     |
| Vapour pressure                              | Not available     |
| Vapour density                               | Not available     |
| Relative density                             | 1.03              |
| Solubility                                   | Miscible in water |
| Partition coefficient: n-octanol/water       | Not available     |
| Auto-ignition temperature                    | Not available     |
| Decomposition temperature                    | Not applicable    |
| Viscosity                                    | Not available     |
| Explosive properties                         | Not applicable    |
| Oxidising properties                         | Not applicable    |

### Other information

No additional information

## 10. STABILITY AND REACTIVITY

**Reactivity**

No hazardous reactions under normal storage and use conditions.

**Chemical stability**

Stable under normal storage and use conditions.

**Possibility of hazardous reactions**

No hazardous reactions known under normal storage and use conditions.

**Conditions to avoid**

Avoid contact with foodstuffs. Avoid exposure to heat, sources of ignition, and open flame. Avoid contact with other chemicals.

**Incompatible materials**

None known

**Hazardous decomposition products**

None known under normal storage and use conditions.

## 11. TOXICOLOGICAL INFORMATION

**Information on toxicological effects**

**Acute toxicity:** No data available for the mixture

| Ingredient  | Oral Toxicity (LD50) | Dermal Toxicity (LD50) | Inhalation Toxicity (LC50) |
|---|----------------------|------------------------|----------------------------|
| Alcohols, C10-16, ethoxylated, sulfates, sodium salts | 1,600 mg/kg (rat)    |                        |                            |
| Alcohols, C12-14, ethoxylated                         | 1564 mg/kg (rat)     | >3000 mg/kg (rabbit)   | >1600 mg/kg (rat)          |
| Amides, coco, N,N-bis(hydroxyethyl)                   | 12,200 mg/kg (rat)   |                        |                            |

**Skin corrosion/irritation:** No data available

**Serious eye damage/irritation:** Causes serious eye irritation

**Respiratory or skin sensitisation:** No data available

**Germ cell mutagenicity:** No data available

**Carcinogenicity:** No data available

**Reproductive toxicity:** No data available

**Summary of evaluation of the CMR properties:** No data available

**Specific Target Organ Toxicity (STOT)-single exposure:** No data available

**Specific Target Organ Toxicity (STOT)-repeated exposure:** No data available

**Aspiration hazard:** No data available

## Information on likely routes of exposure

### Inhalation:

Not expected to cause respiratory irritation.

### Skin contact:

Repeated or prolonged contact may lead to mild irritation.

### Eye contact:

Causes serious eye irritation.

### Ingestion:

No adverse effects expected however large amounts may cause nausea and vomiting.

## Symptoms related to the physical, chemical and toxicological characteristics

May cause redness and tearing of the eyes.

## Delayed and immediate effects as well as chronic effects from short and long term exposure

No information available.

## Numerical measures of toxicity

Acute oral toxicity estimate (ATE) > 5000 mg/kg

## Interactive effects

No information available.

## 12. ECOLOGICAL INFORMATION

### Toxicity

No data available. Avoid contaminating waterways.

### Persistence and degradability

No data available.

### Bioaccumulative potential

No data available

### Mobility in soil

No data available

### Other adverse effects

No data available

## 13. DISPOSAL CONSIDERATIONS

### Waste treatment methods

Waste must be disposed of in accordance with federal, state and local environmental control regulations. The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

## 14. TRANSPORT INFORMATION

Not classified as a Dangerous Good by the criteria of the Australian Code for the Transport of Dangerous Goods by Road and Rail.

**UN Number**

Not applicable

**UN Proper shipping name**

Not applicable

**Transport hazard class(es):**

Not applicable

**Packing group**

Not applicable

**Environmental hazards:**

Not applicable

**Special precautions for user**

Not applicable

**Transport in bulk according to Annex II of MARPOL and the IBC Code**

Not applicable.

**Other relevant information:**

**Hazchem Code**

None allocated

## 15. REGULATORY INFORMATION

**Safety, health and environmental regulations/legislation specific for the substance or mixture**

**Classification**

Globally Harmonised System of Classification and Labelling of Chemicals (GHS) as published by Safework Australia.

**Poison schedule**

A poison schedule number has not been allocated to this product using the criteria in the Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP).

**Inventory listing(s)**

AICS (Australian Inventory of Chemical Substances): All components are listed on AICS, or are exempt

**Chemical safety assessment**

No chemical safety assessment has been carried out for this substance / mixture by the supplier

## 16. OTHER INFORMATION

**Date of preparation**

October 2016

**Abbreviations and Acronyms**

ADG - Australian Code for the Transport of Dangerous Goods by Road and Rail (7th edition)

AICS - Australian Inventory of Chemical Substances  
ATE - Acute Toxicity Estimate  
CAS - Chemical Abstracts Service Registry  
GHS - Globally Harmonized System of Classification and Labelling of Chemicals  
IBC - Intermediate Bulk Container  
IATA – International Air Transport Association  
ICAO – Technical Instructions for the Safe Transport of Dangerous Goods by Air  
IMDG – International Maritime Dangerous Goods  
IMO – International Maritime Organisation  
LC50 - Lethal Concentration, 50% / Median Lethal Concentration  
MARPOL 73/78 - International Convention for the Prevention of Pollution From Ships, 1973 as modified by the Protocol of 1978.  
("Marpol" = marine pollution)  
LD50 - Lethal Dose, 50% / Median Lethal dose  
PBT - Persistent, Bioaccumulative and Toxic  
STOT-RE - Specific target organ toxicity (repeated exposure)  
STOT-SE - Specific target organ toxicity (single exposure)  
SUSMP - Standard for the Uniform Scheduling of Medicines & Poisons  
UN - United Nations  
vPvB - very Persistent and very Bioaccumulative

#### **Key literature references and sources of data**

This Safety Data Sheet summarises to our best knowledge at the date of issue, the chemical health and safety hazards of the product and general guidance on how to safely handle the product in the workplace. Since Lab 6 Pty. Ltd. cannot anticipate or control the conditions under which this product may be used, each user must, prior to usage, review this Safety Data Sheet in the context of how the user intends to handle and use the product in the workplace.

If clarification or further information is needed to ensure that an appropriate assessment can be made, the user should contact this company.

Our responsibility for the product as sold is subject to the terms and conditions of sale, a copy of which is sent to our customers and is also available upon request.

**End of Safety Data Sheet**
