

**Material Safety Data Sheet**  
(In accordance with Regulation (EC) 1907/2006)

**Print Date: 08.18.2015**  
**Reviewed on 19.02.2018**

**Fruit fly attractant by Fruit Fly Ninja**

**1 Substance / Preparation and Company**

Trade name: fruit fly attractant  
Supplier: Fruit Fly Ninja  
Beethovenstraat 74-4  
1077 JM Amsterdam - The Netherlands  
Tel .: +31 (0) 20 2336606  
Internet: [www.fruitflyninja.com](http://www.fruitflyninja.com), contact: [info@fruitflyninja.com](mailto:info@fruitflyninja.com)

Emergency number NL: National Poisons Information Center University Medical Center Utrecht, Tel: +31 88 75 585 61

**2 Hazards**

Classification according to Regulation (EC) No. 1272/2008 Not classified as dangerous in accordance with Regulation (EC) No. 1272/2008.  
Keep out of the reach of children.

None Label elements according to Regulation (EC) no. 1272/2008.

**3 Composition / Information on Ingredients**

Characterization: Substance mixture: apple juice concentrate, water (50%), vinegar (50%). Food grade.  
Hazardous components: No dangerous ingredients.

**4 First aid measures**

General notes: No special measures necessary.  
When processing the liquid outside of the trap, take extra measures:  
After inhalation: Supply fresh air. Then consult a doctor.  
After skin contact: After contact with skin, wash immediately with soap and plenty of water.  
After eye contact: Rinse opened eye for several minutes under running water and seek consult an ophthalmologist.  
After swallowing: If swallowed by mistake drink plenty of water and seek medical advice immediately.  
Do not induce vomiting.

**5 Fire-fighting measures**

Suitable extinguishing agents: Dry chemical, foam, carbon dioxide (CO<sub>2</sub>). Water spray.  
Special hazards caused by the substance or preparation itself, combustion products, resulting gases: Combustion gases are invariably respiratory poison.  
Special protective equipment for firefighters: Use self-contained breathing apparatus.  
Other information: Remove exposed containers, or cool with water spray. Fire residues and contaminated firefighting water must be disposed of according to local regulations.

**6 Accidental release measures:**

Personal precautions: Obey reasonable safety precautions.

Environmental precautions: No special actions required.

Measures for cleaning / collecting: Absorb with binders and place in appropriate containers for recovery or disposal. Ventilate affected area after complete removal of the material thoroughly and clean.

## 7 Handling and storage

Precautions for safe handling: Ensure adequate ventilation. Open containers carefully and keep upright to prevent leakage. Comply with the health and safety regulations.

Information about fire and explosion protection: No special actions required.

Conditions for safe storage, including any incompatibilities: None.

## 8 Exposure controls and personal protective equipment

No special measures necessary.

Additional information about design of technical facilities:

Sufficient ventilation and exhaustion.

When chemically processing the liquid:

use respirator with vapors / aerosols for respiratory protection

Hand Protection: None. When chemically processing the liquid outside of the trap, use impervious gloves (for example, nitrile rubber, oylchloroprene).

Eye protection: None. When chemically processing the liquid outside of the trap, use safety glasses.

Body protection: No special measures necessary.

General protective measures:

When chemically processing, the usual precautionary measures for handling chemicals should be followed. Do not inhale vapors / aerosols. Avoid contact with skin.

Hygienic measures: Wash hands before breaks and after finishing work.

## 9 Physical and Chemical Properties

Form: Liquid

Color: Reddish

Odour: vinegar

pH: 4-6

Boiling Point (° C): not determined

Flash point (° C): > 61

Danger of explosion: not determined

Lower explosion limit: not determined

Upper explosion limit: not determined

Ignition temperature: not determined

Oxidising properties: none

Vapor pressure hPa (50 ° C): not determined

Density at 20 ° C: not determined

Water: miscible with water

## 10 Stability and reactivity

Thermal decomposition / conditions to be avoided: No decomposition if stored and handled.

Materials to avoid: None under normal use.

Hazardous reactions: None under normal use.

Hazardous decomposition products: Possible in traces

## 11 Toxicological

The Fruit Fly Ninja attractant is biological and non-toxic.

General comments: Other dangerous properties can not be excluded. When chemically processing the liquid outside of the trap, the product should be handled with the caution usual with chemicals.

Other information (about experimental toxicology): No data available

## 12 Ecological

General information: Ecological data are not available. Any release of the substance into the environment must be prevented.

## 13 Disposal

Recommendations for the product:

There are no uniform regulations for the disposal of chemicals in the EU Member States.... Small quantities can be thrown in regular garbage or plastic recycle bin. Bulk quantities can be disposed off according in compliance with the regulations. Bring chemical residues to special waste collector.

Recommendation for packaging:

Disposal of uncleaned packagings according to official regulations. Cleaned packaging can be supplied to a recycling station.

## 14 Transport

Additional transport information: Not hazardous according to the regulations.

## 15 Regulations

Water hazard class: None

Restriction of occupation:

For use only by technically qualified individuals.

Observe employment restrictions for young people.

## 16 Other information:

Recommended uses and restrictions: National and local regulations concerning chemicals shall be observed.

## Further information:

This information is based on the present state of our knowledge, the product with regard to the appropriate safety precautions to describe. It does not represent a guarantee of the properties of the product.

Employers should use this information only as a supplement to them, and should make independent judgment of applicability, so that the proper use and protection of the health and safety of employees is ensured.

This information is furnished without warranty, and any use of the product not in conformance with this Material Safety Data Sheet, or in combination with any other product or process, is the responsibility of the user.
