Advion Cockroach Gel

- Which is: pesticide insecticide
- For: food areas crack & crevice application
- Status: farm & factory, passed renewed assessment, transferred to Syngenta cost \$175 + GST

"Passed AsureQuality Assessment for food/beverage/dairy farm & factory non contact, outdoors or in crack and crevice control or equivalent". ref H1955 with conditions. This assessment was prepared by Global Proficiency Ltd using HACCP principles to determine equivalence with food standards listed below. See <http://assessedproducts.asurequality.com/> This supports food Risk Management Programmes & other endorsements that may apply to this product include MPI regulated farm dairy approval, MPI dairy factory endorsement, MPI regulated non-dairy animal product approvals, EPA HSNO-OSH-environment approval (& previously AQIS).

Conditions: used per instructions for use in crevice control in food areas without contact and in an approved treatment programme as this is applicable. It is not intended for use near food, on surfaces where food is prepared or food utensils or packing materials. These notes are similar to FDA "residual insecticides in food areas limited to crack and crevice treatment & should be sealed".

General conditions:

1. The product is to be used according to Manufacturer's Instructions, Good Manufacturing Practice (GMP), and applicable legislation.
2. Usage and carry-over to food should be minimised to ensure food function or composition are not affected, that residues are within applicable Maximum Residue Limits (MRLs/MAVs), and that food legislation requirements are met.
3. The assessment is subject to notification of change (e.g. in formulation, raw materials or instructions) and expires on 05/11/2018.
4. The full report is attached for supplier review and verification. The assessment is activated by countersigning.
