Approved Maintenance Compounds (Non-Dairy) Manual

Part A: Approvals
Amendment 0
Valid until 31 October 2007

5.9 Pesticides

Type A

1. This insecticide may be used in all areas.
2. This insecticide may only be used in edible areas as a space spray provided that, before use, all edible products and packaging materials, except canned products, are removed from the room.
3. After using this insecticide the room must be adequately ventilated, and all food surfaces thoroughly washed with potable water before edible products and packaging material are returned to the room.

Type B

1. This insecticide is not permitted in any edible product area or any area where edible product or packaging material is stored.
2. It must be used in a manner that prevents the entry of the insecticide into edible product areas or stores containing packaging material.

Type C

1. This rodenticide may only be used in premises according to the requirements of a pest control programme which has been documented to relevant NZFSA legislation.
2. It may be used in food areas provided there is no exposed product or food ingredient present in the room.
3. It must be removed from edible areas before processing operations commence.

Type D

1. This pesticide must be used strictly in accordance with the special conditions contained in the approval letter.
2. A copy of this letter must be available to the animal products officer or recognised verifier upon request.

Category A

Suitable for use in all areas. Substance shall have no direct contact with dairy products, or operational product contact surfaces. The substance may be used on non-operational product contact surfaces and non-operational air/ducts/vents provided no residues remain. Substances in this category shall have a withholding time to allow residues to decay/escape or shall require surfaces to be rinsed with potable water to remove any residues.

Category B

No possible contact with any unpackaged Food, Beverage or Dairy Product, packaging or product contact surfaces.

Category C

No possible contact with any Food, Beverage or Dairy Product processing area or packaging storage area.
