## KBMD MICRODRIP®

For use in food service facility drain lines, professionally serviced residential drain lines, and other appropriate drain lines. The *MicroDrip*® system injects one dose every 15 minutes to provide a consistent microbial coating of the treated drain line to maximize microbial effectiveness. For use with the *MicroDrip*® dispenser (dispenser is 4.65" wide x 9" high x 3.15" deep).

### Application Instructions:

See MicroDrip Instruction sheet. Replace cartridge monthly. As with all injection systems it is recommended that the tubing be monitored for buildup and replaced as needed. Replace batteries as needed.

### Storage:

Store at ambient temperature, do not allow to freeze. Empty cartridges should be disposed of in garbage receptacle.

### Product Information:

Environmentally friendly  
Safe for plumbing lines and septic systems  
Contains no corrosive or caustic chemicals  
No free enzymes or FOG emulsifiers

Non-flammable  
Does not cause pass-through  
Multiple strains of naturally occurring bacteria

### Precautions:

Do not ingest
